

PACKING A POWERFUL PUNCH

THE NEW LIFEBREATH 170 ERVD STANDS UP TO HARSH WEATHER CONDITIONS

ANNOUNCING THE LAUNCH OF THE NEW 170 ERVD TO THE LIFEBREATH LINE UP

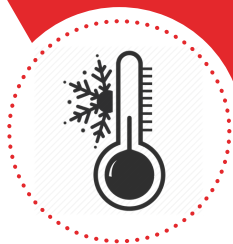

NOW AVAILABLE TO ORDER; the NEW 170 ERVD from Lifebreath, with the top port and highly efficient design is the next level in Energy Recovery Ventilation.

Committed to PURE PERFORMANCE, the new 170 ERVD puts the user in control, with a three-in-one high-speed selectable setting feature, allowing maximum control of airflow and comfort. The intuitive re-circulation mode maintains neutral/balanced pressure in all modes and comes equipped with an intelligent defrost damper motor, exclusive to Lifebreath. This premium ERVD is HVI certified for cold weather and comes with an automatic frost prevention system.

Sensible Efficiency @ 68 CFM (32L/s) -13°F (-25°C) 58%
